

- **OPAC or Online Searching for bibliographic Information**

Patrons in the library can search the bibliographic database and find specific information online. The search facility also shows each item's availability for circulation, including the current status of individual copies of a title reserve status. It also shows titles in order of displaying the current status in acquisition. The Scope of these services includes: Online catalogues

- Boolean Searches
- Current Serials
- Recent Additions
- Electronic Mail
- Multiple Databases
- Web OPAC
- Images/Full Text retrievals
- Multi-Media interface
- Other services from OPAC client
